THE Edmonton Milling Company, of South Edmonton has commenced grinding on this season's crop of wheat. Mr. Ritchie says that the wheat is much harder this year than last and therefore more suitable for grinding. In size and plumpness the grain leaves nothing to be desired, but in color it is not equal to Manitoba hard. Immediately after coming out of the office, they took off their hats and gave one loud hurrah! at the same time firing off a salute in honor of the event. The noise of the firearms at once attracted the mounted police to the scene and the overjoyed immigrants were about to be arrested when explanation was made that this was a loyal salute to the country of their adoption, and the party were freed.

GORDON-CUMMING returned from his hunt in the Barren lands yesterday afternoon, in company with Capt. Segars from Fort Chipewyan. Gordon-Cumming and party left Fort Resolution on Great Slave lake on June 6th and went up by way of Artillery lake to the Barren Lands. Mr. Cumming was more fortunate than Mr. Maltner in taking a route to the south of the large island in Artillery lake in which there was not so much ice as lay on the north side and permitted of his making a quicker trip. Gordon-Cumming only met one Indian in those distant wilds and was successful in shooting four musk ox. In returning, Fort Resolution was left on August 25th. The trip from Fort Chipewyan was very rough.

EDMONTON BULLETIN, OCTOBER 11TH, 1894.

EARLY CLOSING.
A petition is being circulated among
the merchants of town asking the
council to pass a by-law compelling the
closing of stores at seven o'clock during
the coming winter. At the last session
of the Northwest assembly an ordinance
was passed empowering town councils
on petition of a certain proportion of
the business men of the place to pass
such a by-law. The principle of the
ordinance is that where the business
interests of a town do not require the
keeping open of stores to a late hour
it shall be taken out of the power of
one or two merchants to practically
compel all others to keep open. The
responsibility of deciding as to the
desirability of early closing is left with
the council of the town itself, which
must decide on the merits of the case
as it affects that particular town. Sit-
uated as Edmonton is, the BULLETIN be-
lieves that it would be a serious detri-
ment to business to compel the early
closing of stores during the winter
months. This is a matter that goes
very far beyond the question of the
convenience of the persons employed
in the several stores. It affects the
town as a whole and would necessarily
have a most important influence on its
welfare. The position of affairs is very
different in regard to the transaction of
business in the winter from what it is
in the summer. This is a town which
has a good many strings to its business
bow and to those branches of business
which are transacted chiefly in the
summer time early closing makes no
very great difference. But in that
branch which is the principal business
of winter, namely the delivery of pro-
duce, early closing would make all
the difference in the world. In the
winter the days are short and the roads
may be bad so that the farmer who
comes to town with a heavy load may
be a much longer time in reaching here
than he calculated at the start and can-
not get his load delivered before the
hour for closing. He is thereby de-
barred from making his purchases.
This would mean a good deal to the
farmer. So much that he would not
take chances in the matter and would
make it a point to do his business at
some other place where people were
more anxious to do business. In the
case of grain being delivered at the
railway station during the winter it
would simply be commercial suicide
for the business people of the town of
Edmonton to refuse to keep open to a
late hour. If the stores of Edmonton
depended chiefly upon the residents of
the town for their support they might
close at any hour they chose and little
harm would be done. But it is the
outside trade upon which Edmonton
business chiefly depends and to secure
a continually widening scope of which
is the great object of its business men.
To deliberately cut off a most impor-
tant part of that trade by refusing to do
business after seven o'clock in the
winter months would be a strange pro-
ceeding indeed on the part of a place
with the opportunities the ambitions
and the rivalries of Edmonton, and a pro-
ceeding which it cannot afford to take.

GURNEY'S SOURIS HEATER
SPECIALY ADAPTED TO EDMONTON COAL OR
WOOD. THE LEADER OF ITS CLASS.
The growing demand for a thoroughly satisfactory Soft Coal Stove has induced
the Gurney Stove Co., of Hamilton, to introduce an entirely new set of
patterns, which is without question the most powerful, handsome and satis-
factory Soft Coal Stove ever made. The extra heating attachment, which
takes cold air from the floor, passing it through a chamber, up and over the
fire pot and out through the ornament on top of stove or through a duct
from outside as may be desired, is so constructed that it reduces the inside
capacity little while it wonderfully increases the heating capacity of the
stove. The line is large and the range of sizes such as will meet the
requirements of all classes of purchasers.

GENERAL NEWS.

G. W. Greene of Red Deer, has been enrolled an advocate.

Coal is said to have been found at Vancouver as hard as that at Anthracite.

W. R. Meredith leader of the opposition in the Ontario legislature, has resigned from politics to accept the chief justiceship of Ontario.

Neotak, a Salteaux Indian of Turtle Lake, a well-known trapper and hunter, returned to Battleford from the Jasper Pass with his furs last week which were sold to Mahaffy & Clinkskill. He had with him some fine specimens of mica about a foot square.—Saskatchewan Herald.

Inspector Constantine of the N. W. M.P. who was sent to the Yukon country last June to prevent smuggling has returned to Victoria. Of 430 miners who went in last July, all but 60 are spending the winter there. Between ten and twelve thousand dollars have been taken out by four men this season out of the whole output of \$300,000.

It may be interesting to persons who contemplate making excursions into the unknown regions of the far north, to know that by means of the Hudson's Bay Company's steamers from Athabasca Landing, a voyage can be made to the mouth of the McKenzie river within the Arctic circle at a cost of less than 5c per mile. The distance from Athabasca Landing to Peel river is 1,834 miles and the passenger fare \$90. This allows the passenger 150 lbs. of baggage (on steamer only) and does not include meal tickets which are 50c each. The return fare is about \$25 in excess of the journey down. The return trip takes about three months. Freight rates down to Peel river within the Arctic are 15c per lb. and 22c up river.

Winnipeg Tribune: Rev. Dr. King returned home on Thursday from a month's holiday spent at Banff, closing with a trip into the Edmonton country. He was much refreshed by his winter's work, and speaks highly of Banff as a health resort. The service and table at the hotel are equal to those of any summer hotel in the country, and the rates are very moderate. Dr. King was much delighted with the evident prosperity of the Edmonton country, and thinks that, engineering questions aside, the C. P. R. main line had been much better run through on the survey adopted by Hon. Alex. Mackenzie's government than on its present route. The northern country is much more fertile and picturesque. The sight from the brow of the hill at Edmonton looking down into the valley is one of very great beauty, one of the most beautiful in this country. The villages along the Calgary & Edmonton railway appear to be flourishing and busy. Churches are being erected and other evidences are not wanting that the different religious bodies are keeping pace with the rapid growth of settlement.

Their excellencies will be met at the station by Mayor McCauley and driven to the brow of the hill when a torch light procession, headed by the citizen's band will conduct them to the hall.

Picard—Gallagher. That the Citizen's band be requested to prepare themselves to play on Saturday night next at the reception during the procession and in the hall if required.

EDMONTON EXHIBITION.

The annual exhibition of the Edmonton agricultural society opened on Tuesday with very unfavorable weather. Early in the morning the clouds looked threatening and towards eleven o'clock a disagreeable sleet began to fall. At noon the sky looked more hopeful; but in the afternoon it again clouded in. Fortunately this did not deter exhibitors from bringing in their show of articles for competition and it was fully three o'clock before the secretary had finished making entries. The exhibits were good, and the entries numbered over 1,000, an increase over any previous year.

In the lower room of the fire hall were displayed the vegetables, grain and grasses, and a very creditable display they were too. Count De Cazes of the Stony Plain Indian agency had a collection which was an exhibition in itself. Over eighty different varieties of vegetables and herbs were enumerated in it. The idea that field beans could not be well raised in this locality was dispelled by his exhibiting excellent samples of the bees wax, Early China, Early Yellow and Early Mohawk varieties. He had eleven varieties of cabbages some of which were very large. Three of the largest weighed collectively 128 lbs. Two tubs containing green and Egyptian kale graced the centre of the collection and with their curly leaves, looked like tropical trees more than vegetables. Five distinct varieties of tomatoes were exhibited all of which were good specimens and fully ripened. In this collection were lemon and nutmeg melons, winter melons, Colorado citrons, four varieties of carrots, cauliflower, celery, corn, early mammoth and Manitoba; cress, chives, salsify, spinach, sage, sweet marjoram, tobacco, hemp, mushrooms, chervil, lettuce, cucumbers, asparagus, horse radish, and all the other more common varieties of garden stuff grown in the district.

Mr. Mortimer had another fine collection in which were some large squash and cucumbers, some excellent carrots and beets, also radishes, celery, cauliflower, parsnips, turnips, etc. This collection was not entered for competition; but for exhibition only.

Donald Ross had a collection which displayed the large English beans on the stalk and showed how prolific they must have been. In his collection were onions, celery, citrons, peas etc.

The vegetables were a good display throughout. There were white turnips measuring 41 inches and swede turnips measuring 33 inches around, mangolds 23 inches in length, celery 31 inches high, potatoes 10 inches long, onions yellow, white and red 14 inches in circumference, cucumbers 16 inches long and citrons 26

inches around. Some very good collections of potatoes were on exhibition, which, besides showing a variety also showed potatoes of undoubted quality. In the 1st prize collection were, Beauty of Hebron, Early Rose, Stray Beauty, White Star, Snow Flake, Burpees' Perfection, Northwest Beauty, Early Ohio and Blush. In the 2nd prize collection were the daisy, Rosy morning, Rough diamond, Stray Beauty, Beauty of Onondaga, Ladies finger, Rural New Yorker and Burpees' Extra.

A grand collection of grain in the straw was exhibited by R. McKernan which contained all the best known varieties of wheat oats and barley. The entries for grain were more numerous than last year there being nine competitors for wheat, eight for barley and eleven in oats.

T. Carney showed a pair of horse shoes all made by hand, and which had not been touched with a file.

The Ladies' work and school exhibits were shown in the room upstairs which was crowded with entries. Entering the door were the school exhibits which showed very neat penmanship, and well drawn maps; but the most interesting part of this collection was the essays, which were both interesting and instructive. The art exhibit followed and several paintings were on view but there was a total absence of local scenery, and what were shown were mostly European scenes and life subjects. The painting on china was above the average in point of excellence. Some very pretty plates upon which flowers and grasses were painted were particularly worthy of mention. The fancy work was as varied as usual and some very pretty things were shown in needle work, hand painting and bead work. Near the ladies' work, Mr. F. G. Anderson of High river, had his phonograph in operation and it was surrounded the whole evening by interested crowds who held their ears to the tubes to listen to the assorted programme of instrumental pieces and songs which were being rendered. The house plants occupied a table by themselves, a large and beautiful spotted lily exhibited by Mrs. J. A. McDougall was especially noticeable. Several cages of canaries were also shown.

On Tuesday evening the citizen's band added much to the pleasure of the assembly by discoursing music at intervals.

The exhibit of stock was one of the best seen here for a long time. The exhibits in cattle were very good. Several classes of sheep were shown and there was a good display of pigs. There was also a larger and better show of poultry than usual. A pair of splendid bronze turkeys shown by G. Gould of Fort Saskatchewan meriting special mention.

HORSE RACES.

On Wednesday afternoon horse races were held on the race course the events being a stallion trot, half mile running race, one mile open trot and quarter mile running race.

In the first event there were three entries, they being Blackthorn owned by M. McCauley, Manbrino Star owned by Hawkins and Tyndall's Billy. In the first heat McCauley's Blackthorn led from the start and took the heat easily. In the second heat McCauley's horse broke when about half way round the track, then it passed the others and broke again and had to take third place. In the third heat it ran as well as in the first and easily won the race, Tyndall's Billy taking second. The heats were as follows:

| | | | |
|--------------------|---|---|---|
| Blackthorn, | 1 | 3 | 1 |
| Manbrino Star, | 3 | 2 | 3 |
| Tyndall's "Billy," | 2 | 1 | 2 |

The next event was the half mile running race in which Dr. True's Fly, W. T. Herndon's, Little George, and S. S. Taylor's Rosebery, were entered. Only two heats were run, S. S. Taylor's Rosebery, coming in first and Herndon's Little George, second in both heats. The heats were as follows:

| | | |
|----------------|---|---|
| Rosebery, | 1 | 1 |
| Little George, | 2 | 2 |
| Fly, | 3 | 3 |

Following this was the pony race in which W. Fielder's horse, Herndon's Little George and True's Fly were the competitors. This race was an even one and the three heats had to be run to decide it. They resulted as follows:

| | | | |
|--------------------------|---|---|---|
| Herndon's Little George, | 1 | 2 | 1 |
| Dr. True's Fly, | 2 | 3 | 2 |
| Fielder's horse, | 1 | 1 | 3 |

The last event was the open to all trot in which two heats were run. It resulted as follows:

| | | |
|------------------------|---|---|
| McCauley's Blackthorn, | 1 | 1 |
| Hawkin's horse, | 2 | 2 |
| Osborne's mare, | 3 | 3 |

The races were attended by upwards of four hundred people and much interest was manifested in them from the commencement to the close.

The list of prizes will appear in next issue.
